

Magic Motives

Part 1

Five-Note Minor Scales

1. Applications

Here is a five-note D minor scale shown with chord symbols indicating all of its applications. Note its structure: whole-step, half-step, whole-step, whole-step.

Two staves of music showing the D minor scale (D, E, F, G, A) with various chord symbols above each measure. The first staff contains: D-7, G-9, G9, G sus7, and C#7+9. The second staff contains: C sus7, Bø, Eø, FΔ, and BbΔ+11.

Notice where each five-note scale is located in relation to the chord. It's built on the root or 5th of a minor chord, the 5th of a dominant 7th chord, the b9 of an altered dominant chord, the 5th or 9th of a dominant 7th sus4 chord, the 3rd or 7th of a half-diminished chord, and the 3rd or 6th of a major 7th chord. The next example shows the five-note minor scales transposed to apply to C chords of various types. The chord tone on which the scale is built is shown under the first note.

Two staves of music showing the C minor scale (C, D, Eb, E, F) with various chord symbols above each measure. The first staff contains: C-7, C-9, C9, C sus7, and C7+9. The second staff contains: C sus7, Cø, Cø, CΔ, and CΔ+11. Below the notes, the chord tone used for the scale is indicated: 1, 5, 5, 5, b9, 9, 3, 7, 6, 3.

Be sure to play each application of the five-note scales. Play the chord on a keyboard and, if you're not a pianist, hold the sustain pedal down and play the related five-note scale over it on your instrument. I think you will agree that the scale sounds equally good in all locations.

(Magic Motives, Part 1)

From the previous example, it should be obvious that it will be very helpful if you are comfortable playing five-note minor scales in all keys! This should be part of your daily practice.

The five-note minor scale in all 12 keys:

D-7 G-7 C-7 F-7 B \flat -7 E \flat -7
A \flat -7 C \sharp -7 F \sharp -7 B-7 E-7 A-7

2. Motive Development

To develop motives, experiment with different types of motion through either the five-note scale or the minor triad it outlines. The examples below begin very simply and gradually become more complex. Start with motives that use only the five notes in the scale. Chromatic embellishment of motives will be discussed later. The scale numbers are written under the notes.

Motives built from a five-note D minor scale:

1 5 3 1 1 2 3 5 5 3 2 1 2 1 3 5 4 5 3 1
3 2 1 5 3 4 5 1 5 3 2 1 4 3 3 4 5 2 4 3 4 3 5 2 1
4 5 3 2 1 1 2 3 4 5 3 2 1 5 3 2 1 4 4 3 5 4 4 3 5 2 1 3 5 3 4 5 2 4 4 3 1

3. Motive Expansion

Motives do not have to be confined within the five-note range of the scale. In fact, a very well-known motive, the "Cry Me a River" lick, comes from a five-note minor scale. In the first example below, you will see the original motive and its expansion with the first two notes up an octave. Also shown are a couple of other variations on expanding the motive.

Scale	Motive	Expansions		
1 2 3 4 5	2 1 5 3 2 1	2 1 5 3 2 1	2 1 5 3 2 1	2 1 5 3 2 1

Scale	Motive	Expansions		
1 2 3 4 5	3 1 5 4 3 1	3 1 5 4 3 1	3 1 5 4 3 1	3 1 5 4 3 1

Scale	Motive	Expansions		
1 2 3 4 5	5 1 2 3 2 1 5	5 1 2 3 2 1 5	5 1 2 3 2 1 5	5 1 2 3 2 1 5

Scale	Motive	Expansions		
1 2 3 4 5	1 3 5 3 4 2 1	1 3 5 3 4 2 1	1 3 5 3 4 2 1	1 3 5 3 4 2 1

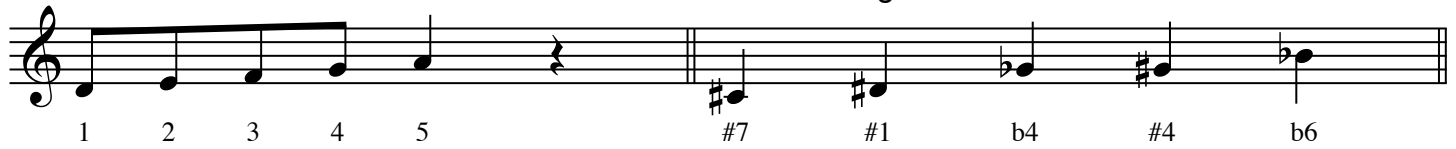

Scale	Motive	Expansions		
1 2 3 4 5	5 3 2 4 3 1	5 3 2 4 3 1	5 3 2 4 3 1	5 3 2 4 3 1

4. Chromatic Embellishment

In addition to the five notes in the scale, there are five chromatic notes inside and around the scale. All of these notes are available for embellishing and adding chromatic interest to motives. Potentially, you could use 10 of the 12 notes in a motive, but don't destroy the clarity of the minor scale! As much as we like it, chromaticism destroys tonality if the emphasis isn't on the non-chromatic notes.

A five-note minor scale and its embellishing tones:

Scale Embellishing tones

1 2 3 4 5 #7 #1 b4 #4 b6

Passing tones

2 b2 1 3 5 4 4 b4 3 5 2 1 4 #4 5 3 2 1

Single-approach tones

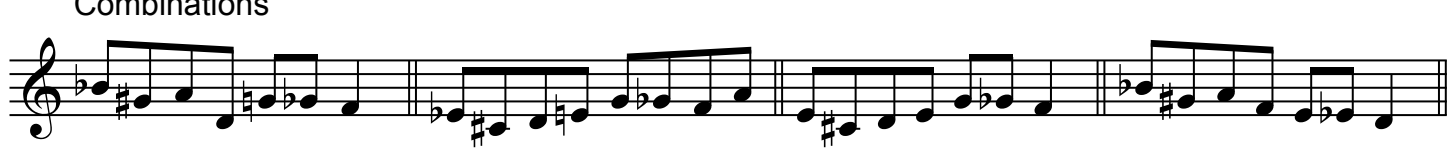

#7 1 2 3 4 5 #1 2 3 1 5 b4 3 1 2 1 b5 4 3 1 5 1 b6 5 3 1 4 3

Double-approach tones

b2 #7 1 3 5 4 b5 #3 4 3 2 1 b6 #4 5 3 1 3

Combinations

b6 #4 5 1 4 b4 3 b2 #7 1 2 4 b4 3 5 2 #7 1 2 4 b4 3 b6 #4 5 3 2 b2 1

5. Motives Applied to Chord Progressions

The first phrase uses the same five-note D minor scale for both the II chord (built on the root) and the V chord (built on the 5th).

1 2 3 4 5 3 2 1 4 b4 3 5 2 1 4

This phrase uses a five-note A minor scale for the II chord (built on the 5th) and a five-note Ab minor scale for the V chord (built on the b9th). This allows for a descending chromatic motion.

5 3 2 1 2 1 1 2 3 4 5 3 2 1

The next phrase uses a five-note F minor scale for the II chord (built on the 3rd) and a five-note Ab minor scale for the V chord (built on the b9th). This creates an ascending motion of a 3rd.

1 2 3 4 5 3 2 1 3 4 5 3 2 1

This phrase uses a five-note F minor scale for the II chord and a five-note Ab minor scale for the V chord, as in the previous example. This time the 2-1-5-3-2-1 motives have been expanded to create the "Cry Me a River" lick.

2 1 5 3 2 1 2 1 5 3 2 1

(Magic Motives, Part 1)

The next phrase is a III-VI-II-V-I (turnaround) progression. It uses minor scales built on the 5th of the minor chords and minor scales built on the b9 of the altered dominant chords. There are opportunities for a large variety of chromatic sequences. Notice that the same 5-3-2-1 motive is used on both of the dominant chords.

Musical notation for a III-VI-II-V-I turnaround progression. The key signature has one sharp (F#). The progression consists of five chords: E-7, A7(b9), D-7, G7(b9), and CΔ. The melody is written on a single staff. Fingerings are indicated by numbers 1-5 below the notes. The 5-3-2-1 motive is used on the E-7, A7(b9), and G7(b9) chords.

This is another turnaround progression with a different motive used on each chord.

Musical notation for a III-VI-II-V-I turnaround progression. The key signature has one sharp (F#). The progression consists of five chords: E-7, A7(b9), D-7, G7(b9), and CΔ. The melody is written on a single staff. Fingerings are indicated by numbers 1-5 below the notes. Different motives are used for each chord.

6. Practice Patterns for Motive Embellishment

Here are a couple of practice patterns using all of the notes of a five-note D minor scale and all five embellishing tones. Though they are extremely chromatic, the D minor sound is still clear. Learning these in all keys will increase your security with both the scales and the chromatic embellishment of them.

Musical notation for practice patterns for motive embellishment. The key signature has two flats (Bb, Eb). The notation shows two phrases of a five-note D minor scale with chromatic embellishments. Fingerings are indicated by numbers 1-5 and accidentals (b, #, h) below the notes.

Magic Motives

Part 2

Five-Note Major Scales

1. Applications

Here is a five-note C major scale shown with chord symbols indicating all of its applications. Note its structure: whole-step, whole-step, half-step, whole-step.

Three staves of musical notation in treble clef, each containing five measures. Each measure shows a five-note scale starting on a specific chord. The chords and their corresponding scale notes are: C^Δ (C-D-E-F-G), C⁷ (C-D-E-F-G), B^bΔ+11 (B^b-C-D-E-F), B^b13 (B^b-C-D-E-F), A-7 (A-B-C-D-E), A^bΔ+5 (A^b-B-C-D-E), G sus⁷ (G-A-B-C-D), G-13 (G-A-B-C-D), FΔ⁹ (F-G-A-B-C), F-Δ (F-G-A-B-C), E7+9 (E-F-G-A-B), E∅ (E-F-G-A-B), D-11 (D-E-F-G-A), D∅⁹ (D-E-F-G-A).

Notice where each five-note scale is located in relation to the chord. It is built on the root, or 9th, of a major 7th or dominant 7th chord; the 3rd of a minor 7th chord, or major 7th #5 chord; the 4th of a dominant 7th sus4, or minor 7th chord; the 5th of a major 7th, or minor #7 chord; the #5 of an altered dominant 7th; the 6th of a half-diminished chord; and the 7th of a minor 7th, or half-diminished 7th.

The next example shows the five-note major scales transposed to apply to C chords of various types. The chord tone on which the scale is built is shown under the first note.

Three staves of musical notation in treble clef, each containing five measures. Each measure shows a five-note scale starting on a specific chord. The chord symbols and the chord tone under the first note are: C^Δ (1), C⁷ (1), CΔ13 (9), C13 (9), C-7 (3), CΔ+5 (3), C sus⁷ (4), C-13 (4), CΔ⁹ (5), C-Δ (5), C7+9 (#5), C∅ (6), C-11 (7), C∅⁹ (7).

(Magic Motives, Part 2)

Be sure to play each application of the five-note scales. Play the chord on a keyboard and, if you're not a pianist, hold the sustain pedal down and play the related five-note scale over it on your instrument. I think you will agree that the scale sounds equally good in all locations.

From the previous example, it should be obvious that it will be very helpful if you are comfortable playing five-note major scales in all keys. This should be part of your daily practice.

The five-note major scale in all 12 keys:

Musical notation showing five-note major scales in 12 keys. The scales are arranged in two rows of six. Each scale is written on a single staff with a treble clef and a common time signature. Above each scale is a triangle symbol with the key signature. The keys are: C, F, B \flat , E \flat , A \flat , D \flat (top row); F \sharp , B, E, A, D, G (bottom row). Each scale consists of five notes, starting on the first line of the staff.

2. Motive Development

To develop motives, experiment with different types of motion through either the five-note scale or the major triad it outlines. Below, you will see some examples that begin very simply and gradually become more complex. Begin with motives that use only the five notes in the scale. Chromatic embellishment of motives will be discussed later. Motives from a five-note C major scale:

Musical notation showing five-note motives from a C major scale. The motives are arranged in three rows of five. Each motive is written on a single staff with a treble clef and a common time signature. Below each motive is a sequence of numbers representing fingering. The motives are: Row 1: 1 5 3 1, 1 2 3 5, 5 3 2 1, 2 1 3 5, 4 5 3 1; Row 2: 3 2 1 5, 3 4 5 1, 5 3 2 1 4 3, 3 4 5 2 4 3, 4 4 3 5 2 1; Row 3: 2 2 3 5 2 1, 1 2 3 4 5 3 2 1, 5 3 2 1 4 2 3 5, 4 2 3 5 2 1 3 5, 3 4 5 2 4 2 3 1.

3. Motive Expansion

Motives do not have to be confined to the five-note range of the scale. Any notes in the motive may be moved up or down an octave to create larger intervals. Here are some five-note major scale motives with their expansions. The scale numbers are written under the notes.

Scale	Motive	Expansions		
				
Scale	Motive	Expansions		
				
Scale	Motive	Expansions		
				
Scale	Motive	Expansions		
				
Scale	Motive	Expansions		
				

4. Chromatic Embellishment

In addition to the five notes in the scale, there are five chromatic notes inside and around the scale. All of these notes are available for embellishing and adding chromatic interest to motives. Potentially, you could use 10 of the 12 notes in a motive, but don't destroy the clarity of the major scale! As much as we like it, chromaticism destroys tonality if the emphasis isn't on the non-chromatic notes. The next example shows a five-note major scale and its embellishing tones.

Scale Embellishing tones

1 2 3 4 5 7 #1 #2 #4 b6

Passing tones

2 b2 1 3 4 3 3 b3 2 5 2 1 4 #4 5 3 2 1

Single-approach tones

7 1 2 3 4 5 #1 2 3 2 5 #2 3 4 3 5 #4 5 4 3 5 2 b6 5 3 1 4 3

Double-approach tones

b3 #1 2 3 5 2 4 #2 3 1 2 5 b6 #4 5 3 1 2

Combinations

b6 #4 5 1 4 #2 3 b2 7 1 2 3 b3 2 5 2 7 1 2 4 #2 3 b6 #4 5 3 2 b2 1

5. Motives Applied to Chord Progressions

The first phrase uses a five-note C major scale for the II chord (built on the 7th), and the same five-note G major scale for both the V chord (built on the root) and the I chord (built on the 5th).

Musical notation for the first phrase. It consists of three measures on a treble clef staff. The first measure is labeled with a handwritten D^{-7} chord above it. The second measure is labeled with a handwritten G^7 chord above it. The third measure is labeled with a handwritten C^{Δ} chord above it. The notes are: Measure 1: G4, A4, B4, C5, B4, A4, G4; Measure 2: G4, A4, B4, C5, B4, A4, G4; Measure 3: G4, A4, B4, C5, B4, A4, G4. Below the staff, the fingering is: 5 3 2 1 4 3 2 1, 3 5 3 1 2 3 5 4, 3 2 1 2 3 5 3.

This phrase uses a five-note G major scale for all three chords of the II-V-I progression.

Musical notation for the second phrase. It consists of three measures on a treble clef staff. The first measure is labeled with a handwritten D^{-7} chord above it. The second measure is labeled with a handwritten G^7 chord above it. The third measure is labeled with a handwritten C^{Δ} chord above it. The notes are: Measure 1: G4, A4, B4, C5, B4, A4, G4; Measure 2: G4, A4, B4, C5, B4, A4, G4; Measure 3: G4, A4, B4, C5, B4, A4, G4. Below the staff, the fingering is: 1 2 3 4 5 5 4 2, 3 4 5 3 1 3 5 4, 3 1 2 3 1 3 5.

The next phrase uses a five-note C major scale for the II chord (built on the 7th), a five-note A major scale for the V chord (built on the 9th) and a five-note G major scale for the I chord (built on the 5th).

Musical notation for the third phrase. It consists of three measures on a treble clef staff. The first measure is labeled with a handwritten D^{-7} chord above it. The second measure is labeled with a handwritten G^{+11} chord above it. The third measure is labeled with a handwritten C^{Δ} chord above it. The notes are: Measure 1: G4, A4, B4, C5, B4, A4, G4; Measure 2: G4, A4, B4, C5, B4, A4, G4; Measure 3: G4, A4, B4, C5, B4, A4, G4. Below the staff, the fingering is: 1 2 3 4 5 3 2 1, 3 5 3 1 2 3 5 3, 5 4 3 2 1 5 3 1 2.

This phrase uses a five-note C major scale for the II chord, a five-note E^{\flat} major scale for the V chord and a five-note D major scale for the I chord.

Musical notation for the fourth phrase. It consists of three measures on a treble clef staff. The first measure is labeled with a handwritten D^{-7} chord above it. The second measure is labeled with a handwritten $\text{G}^7 \sharp 9$ chord above it. The third measure is labeled with a handwritten C^{Δ} chord above it. The notes are: Measure 1: G4, A4, B4, C5, B4, A4, G4; Measure 2: G4, A4, B4, C5, B4, A4, G4; Measure 3: G4, A4, B4, C5, B4, A4, G4. Below the staff, the fingering is: 3 5 3 1 2 3 5 4, 1 5 3 1 2 3 2 1, 2 5 3 1 2 5 3.

(Magic Motives, Part 2)

The next phrase is a III-VI-II-V-I (turnaround) progression. It uses five-note major scales built on the #5th of the altered dominant chords and a five-note major scale built on the 5th of the I chord.

E7^{b9} A7^{b9} D7^{b9} G7^{b9} C^Δ

3 5 1 3 1 3 5 3 1 5 3 5 1 3 3 5 3 2 1 5 3 2 1

This is another turnaround progression, using the same scales as the previous example, with the same motive used on each chord.

E7^{b9} A7^{b9} D7^{b9} G7^{b9} C^Δ

5 3 2 1 5 3 2 1 5 3 2 1 5 3 2 1 5 3 2 1 3 5 3 2 1

6. Practice Patterns for Motive Embellishment

Here are a couple of practice patterns that use all of the notes of a five-note C major scale and all five embellishing tones. Though they are extremely chromatic, the C major sound is still clear. Learning these in all keys will increase security with both the scales and the chromatic embellishment of them.

b6 #4 5 3 2 1 4 #2 3 5 2 1 b2 7 1 b2 7 1 2 3 5 4 #2 3 5 b6 #4 5 1

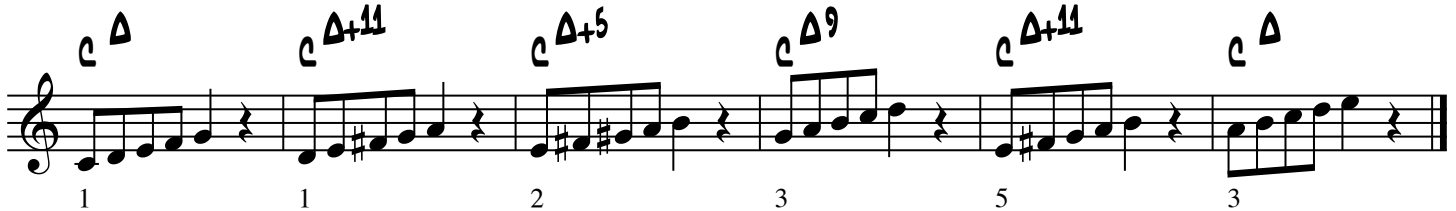

Magic Motives

Part 8

Summary of Applications

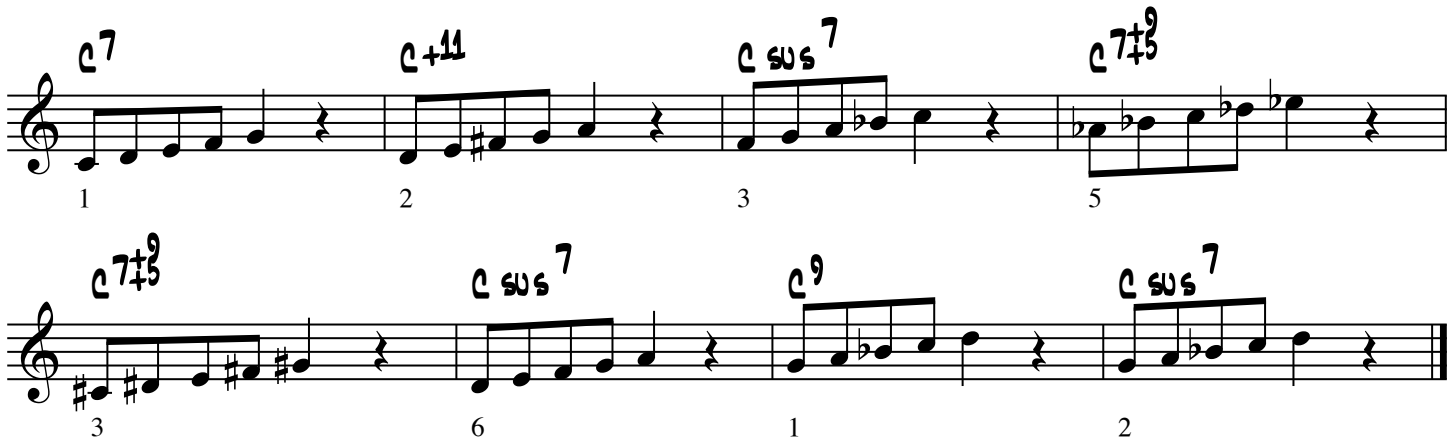

(The chord tones, on which the scales are located, are under the first notes in each example.)

Major 7th Chords

Musical notation for Major 7th Chords. The first line shows six examples of scales in common time (C) with the following chord symbols above them: Δ , $\Delta+11$, $\Delta+5$, Δ^9 , $\Delta+11$, and Δ . The first notes of each scale are marked with numbers 1, 1, 2, 3, 5, and 3 respectively.

Dominant 7th Chords

Musical notation for Dominant 7th Chords. The first line shows four examples of scales in common time (C) with the following chord symbols above them: 7 , $+11$, sus^7 , and $7\sharp 9$. The first notes of each scale are marked with numbers 1, 2, 3, and 5 respectively. The second line shows four more examples with chord symbols $7\sharp 9$, sus^7 , 9 , and sus^7 . The first notes of each scale are marked with numbers 3, 6, 1, and 2 respectively.

Minor 7th Chords

Musical notation for Minor 7th Chords. The first line shows six examples of scales in common time (C) with the following chord symbols above them: -7 , -13 , $-\Delta$, -11 , -7 , and -9 . The first notes of each scale are marked with numbers 4, #5, #1, 2, 5, and 5 respectively.

Half-Diminished Chords

Musical notation for Half-Diminished Chords. The first line shows five examples of scales in common time (C) with the following chord symbols above them: \emptyset , \emptyset^9 , \emptyset , \emptyset , and \emptyset . The first notes of each scale are marked with numbers 3, 4, 5, 1, and 5 respectively.

Summary of Applications (continued)

Major 7th Chords:

Five-note major scale on 1, 2 (#11), 3 (#4, #5) and 5

Five-note minor scale on 3 (#11) and 6

Dominant 7th Chords:

Five-note major scale on 1, 2 (#11), 4 (sus4) and #5 (#5, #9)

Five-note minor scale on b2 (#5, #9), 2 (sus4) and 5 (9, 9sus4)

Five-note diminished scale on 3, 5, 7 and b9

Minor 7th Chords:

Five-note major scale on 3, 4, 5 (#7) and 7

Five-note minor scale on 1 and 5

Half-Diminished Chords:

Five-note major scale on 6 and 7

Five-note minor scale on 3 and 7

Five-note diminished scale on 1

Diminished 7th Chords:

Five-note diminished scale on 1, 3, 5 and 7
